Dear House Owner / Tenant,

FORTH REPLACEMENT CROSSING – M9 JUNCTION 1A
Overnight working 29th August for 5 days

SRB Civil Engineering, on behalf of Transport Scotland, has been appointed as the main contractor to undertake the upgrade works on the M9 Junction 1a and the works are programmed to take 14 to 18 months to complete from September 2011.

We would like to advise you that we will be carrying out works on the M9 Spur and on Stirling Road overnight for the next 5 nights from Wednesday 29th August. The nature of the activities may mean that you will be aware of the works whilst in progress. The works are necessary overnight and will commence at approximately 9pm. We will endeavour to complete the works as quickly as possible.

On Thursday 30th and Friday 31st August we will be lifting into place the new section of the Newmains Road Bridge. This will involve temporary traffic disruption as traffic will be stopped in both directions for up to 30 minutes at a time between the hours of 9:30 and 3:30 and again after 7:00pm.

We apologise in advance for any inconvenience that the works may cause and thank you for your continued patience whilst we construct the new junction. Should you have any queries regarding any aspects of SRB operations, please contact the FRC Helpline on 08000 786 910 (choose Option 3). Alternatively you can contact the Community Liaison Officer, Elaine Barrie on 07720 947 977.

Our approach to all works is to minimise the impact and disturbance to the local community. Through our previous experience of such works we are keen to ensure that you are aware in advance of any works. We will continue to keep you informed in advance of works taking place in the vicinity of your neighbourhood during the contract period however should you have any queries or require any additional information in the meantime please don't hesitate to contact the Community Liaison Officer to discuss.

Yours faithfully,

Seamus O'Brien
M9J1A Project Manager (SRB Civil Engineering Ltd)
