Morrison Construction

Dear Neighbour,

Further to our issue of Flyer Ref F88 we confirm a change to our planned hours of work next Thursday and Friday.

Instead of carrying out surfacing works during the day we will be working at night using temporary traffic lights for traffic management.

Our works on Monday to Wednesday inclusive will be carried out at night as previously indicated. We will also deploy temporary traffic lights to control traffic for these first three nights.

In summary:-

Our working hours will be Monday to Friday (inclusive) overnight, 8pm to 6am, with a half hour start-up time in the evening starting at 7.30pm.

The detailed works programme will be as previously indicated:-

Monday 14th - plane out existing road, excavate to formation level and place capping layer.

Tuesday 15th - install gully, drainage tie-in and ducting. Install new kerbing.

Wednesday 16th - place and compact sub base and trim to level.

Thursday 17th - place two bituminous base layers.

Friday 18th - Place binder layer and surface course.

Later date (under stop/go) - road markings (very short duration)

The plant involved will include a road planer, excavators, vibrating rollers, lorries, vibrating plate compactors, road paver and road marking equipment and temporary traffic lights.

Throughout the works we will maintain emergency access at all times (to emergency vehicles and residents) and normal access, via ramps where required, for residents' vehicles from 6am to 8pm inclusive.

We will facilitate resident traffic access/egress outwith our working hours using the same temporary ramps and temporary surfaces which will provide access for the emergency services.

The programme times indicated can be influenced by many factors and may change without warning near or during the time of execution. Also, the overall duration of each element may require to be extended to achieve completion should unforeseen circumstances be encountered.

PTO

For up to date information on the project please see Transport Scotland's FRC project website www.forthreplacementcrossing.info. Should you have any queries, please contact our email enquiries@forthreplacementcrossing.info or our Hotline on 0800 078 6910.

In addition, our Contact and Education Centre (CEC), located adjacent to the Forth Road Bridge offices on the south side of the existing Forth Road Bridge, is manned 09:00hrs to 17:00hrs Monday to Thursday, 09:00hrs to 16:00hrs on Fridays and 10:00hrs to 16:00hrs on Saturdays to deal with enquiries and to supply information.

Also, access to the Exhibition room in the building is available at certain times.

For confirmation of all CEC opening times please check the project website.

Issued to –Neighbours adjacent to the works in Dundas Home Farm area.

Issue date –Thursday 10th March 2016
