Dear House Owner / Tenant,

FORTH REPLACEMENT CROSSING – M9 JUNCTION 1A Work Activities Update – M9 Spur Resurfacing

SRB Civil Engineering, on behalf of Transport Scotland, has been appointed as the main contractor to undertake the upgrade works on the M9 Junction 1a.

We would like to advise you that we will be commencing the resurfacing of the M9 Spur behind Buie Rigg around to where it joins the M9. These works will take place overnight when we can close the road to traffic. We anticipate this work will take place tonight and tomorrow night and again on three separate nights over the coming two weeks. At this stage we have scheduled **Monday 29th October then 5th and 6th of November 2012** to undertake works - however resurfacing works are weather dependent and this schedule is subject to change.

The nature of these activities may mean that you will be aware of the works whilst in progress as we will be using a number of vehicles and lighting units.

We apologise for any inconvenience that the works may cause and thank you for your continued patience whilst we construct the new junction. Should you have any queries regarding any aspects of SRB operations, please contact the FRC Helpline on 08000 786 910 (choose Option 3). Alternatively you can contact the Community Liaison Officer, Elaine Barrie on 07720 947 977.

Our approach to all works is to minimise the impact and disturbance to the local community. Through our previous experience of such works we are keen to ensure that you are aware in advance of any the works. We will continue to keep you informed in advance of works taking place in the vicinity of your neighbourhood during the contract period however should you have any queries or require any additional information in the meantime please don't hesitate to contact the Community Liaison Officer to discuss.

Yours faithfully,

Seamus O'Brien
M9J1A Project Manager (SRB Civil Engineering Ltd)
