

NOTES

- 1. All dimensions are in millimetres.
- 2. Please note that the dimensions of the wall are subject to change dependant upon the required height.
- 3. If a reinforced wall is recommended we would advise that a design be undertaken where necessary.
- 4. Setting out details, final shape of base and interface with existing structure to be determined during the design process.
- 5. Concrete classes are as follows:Blinding/Mass concrete ST1

- 6. Please note that dimensions of foundations may vary depending on ground conditions.

7. Concrete Protection to be as follows:-Bituminous- waterproofing of all buried concrete surface in accordance with CI 2004 of the specification.

- 8. 20mm joint shall be provided for ever 5m interval for the free standing masonry wall.
- 9. Where possible re-use existing sandstone wall and cope materials.
