27th January 2012

Dear House Owner / Tenant,

FORTH REPLACEMENT CROSSING – M9 JUNCTION 1A

RE: Work Activities Update

SRB Civil Engineering, on behalf of Transport Scotland, has been appointed as the main contractor to undertake the upgrade works on the M9 Junction 1a.

We have recently commenced works around Newmains Bridge over Stirling Road and this has required some intensive sheet piling activities to be carried out. We are conscious of the potential effect this can have on the local community and have limited operational hours to try to minimise the impact this will have.

In order to complete the works, and to minimise the amount of time that the surrounding community is exposed to these works, we will recommence on Monday 30th January and would hope to have completed this element by Friday 3rd February.

Should you have any queries regarding any aspects of SRB operations, please contact either of the following :

SRB Engineer –
FRC Helpline -

07715802591
08000 786 910

Our approach to all works is to minimise the impact and disturbance to the local community. Through our previous experience of such works and given the proximity of the works to the surrounding community, we understand that local residents can be affected. Therefore, we are keen to ensure that you are aware in advance of what is being undertaken and aware of the possible impacts that this may have on you in terms of dust, noise or vibration all of which are closely monitored.

We are currently consulting with local community groups, City of Edinburgh Council and the Western Neighbourhoods Partnership to advise of the works and minimise the impact on the community.

CIVIL ENGINEERING & BUILDING CONTRACTORS

We would welcome any input that you may have in order to further improve our approach and recommend that you contact your local community representative or our Community Liaison Officer, Elaine Barrie, on 07720 947 977 if you would like to put forward any suggestions.

We will endeavour to keep you informed of any works taking place in the vicinity of your neighbourhood during the contract period. However, should you have any queries or require any additional information in the meantime please don't hesitate to contact the Community Liaison Officer to discuss.

SRB Civil Engineering would like to take this opportunity to thank you and the local community for your continuing patience.

Yours faithfully,

(SRB Civil Engineering Ltd)
