

01-03-2012: Please note that errors were found in Table 24 (Concessionary fare passes issued) due to a misalignment in the row entries.

Figures for the following nine Local Authorities were affected: Clackmannanshire, Dumfries and Galloway, Dundee City, East Ayrshire, East Dunbartonshire, East Lothian, East Renfrewshire, Edinburgh and Eilean Siar. These have now been corrected.

Apologies for any inconvenience caused.

12-03-2012: Please note that errors have been identified in the 2010-11 figures in Tables 15 and 16 (passenger journeys and Vehicle Kilometres by region).

This is the first time Transport Scotland have calculated this table as previously it was provided by DfT. In calculating the 2010-11 figures we used location of 'main' operation (i.e. where the operator was based) rather than the location of the services themselves which had been used in previous years.

The impact of this error resulted in changes to trends for the North East, Tayside and Central, Highlands, Islands and Shetland and South East regions. The figures for South West and Strathclyde were also affected but to a lesser degree. The overall Scotland figure and trend was unaffected.

As no other tables in the publication provide regional breakdowns they are unaffected. Additional quality assurance checks will be built into the publication process to prevent this from occurring in the future.

Figures within the tables have been corrected and the relevant section of the publication text and Statistics News Release have also been updated to reflect the changes.

Apologies for any inconvenience caused.
