Subject: A96 Threapland Junction Improvements - Deer Commission for Scotland consultation response

Dear Fraser,

I apologise for the late reply to the request for comments on the A96 Threapland junction improvements. DCS hold little information on this area. We do not have a collection of deer collision information as this is mainly a Roe deer area and it is most likely that drivers do not report roe deer collisions as frequently as for the larger deer species. DCS would welcome any improvements to the road that will increase driver awareness and vision.

If you have any further queries then you can contact me on the number below.

Regards

James

James Irvine
Deer Support Officer
