To whom it may concern

I am writing to register my objection to the proposed closure of Maryhill train station.

The station is 2mins from my house. It gets me into town in 12mins at a cost of £2.20 return.

The nearest bus stop is further away. The trip takes 20mins and costs £1.80 each way.

I am not alone, the station serves a large populace. The station is a fully functional part of an existing integrated transport system in line with policy to reduce road traffic.

For the reasons stated above I register my objection to the closure of Maryhill train station.
