Q38 comments: MUST RUN FROM LONDON to end destination

39. We would be interested in your views in the level and type of service that the Caledonian Sleeper Services should provide. Including:

- What is the appeal of the Caledonian Sleeper Service, and if there were more early and late trains would the appeal of the sleeper services change?
- What is the value of sleeper services to Fort William, Inverness and Aberdeen and are these the correct destinations, for example would Oban provide better connectivity?
- What facilities should the sleeper services provide and would you pay more for better facilities?

Q39 comments: Appeal is to have a night's sleep and to be able to get up and work next morning. So sleeper has to take long enough to provide the sleep time, and be comfortable. Sleeper to all these places is necessary. Not convinced you need all the on board staff you have at the moment. Could be less and cut costs.

You really need to put more effort into making the sleeper train a good experience – an attraction in UK for tourists – make it special. So GOOD food, clean train, well kept train. Take a look at what west European continental sleeper trains offer and do as well or better.
