

C000371

Mrs. J. E. A. Levy

I would like to register my disapproval of any scheme which would lead to the discontinuation of the through train service from London Kings X to Aberdeen.

This would affect tourism - golfing at St. Andrews, & other golf centres north of Dundee, families with children, the elderly & many regular commuters who value the journey for some peaceful working time - & who might well switch to the air if the service were to be discontinued.

Having to drag one's luggage through the length of Waverley Station is not the best advertisement for the comfort & convenience of rail travel. Having had to do this on several occasions when the London train has been terminated at Waverley - I do not regard it as a viable alternative.
