Dear Ms Martin

Rail 2014 – Consultation

I refer to the current public consultation launched by Transport Scotland on the future of rail passenger services in Scotland.

I note section 1.1 Caledonian Sleeper of the public consultation document and the issues and options contained within the report.

The Caledonian Sleeper service from Inverness is used to carry live Orkney shellfish bound for London. This service enables restaurants in London to receive high quality fresh produce from the Northern Isles.

Any cuts to the Caledonian Sleeper service may be detrimental to the local Orkney shellfish businesses if they no longer have a means to distribute their produce within the same time frame. It is also requested that consideration is made towards a suitable storage area as the current provision (3 x bicycle spaces) is very limited.

I also enclosed Appendix D – Respondent Information Form for your information. Should you require any further information please do not hesitate to contact me.

Yours sincerely

Laura J Cromarty
