

- 1) Suggest drinking is not banned but that anti-social behaviour is. You should not ruin other people's freedom for the behaviour of a minority. Drinking on a train can be a pleasure.
- 2) Sleeper services should be extended, cheaper and advertised more as a fantastic mode of transport
- 3) New lines should be opened and provided as alternatives to motorways such as a route to Strathaven or Lesmahagow instead of having to take the M74.
- 4) Pricing should be simplified and easy for tourists to understand.
- 5) Barrier gates should be modified to operate quickly - putting a key in to let someone through is painfully slow.
- 6) Train companies should be fined for late or cancelled trains.
- 7) Trains should aim to be Scotland's primary mode of transport.
