From Dr AJRea - DG140RY

I am representing my own views here although I commute daily from Carlisle to Glasgow central. I work for the NHS but do enjoy the benefit of an HMF railcard. I tend to use Virgin services mostly.

I would like to see a more useful scotrail service between Carlisle and Glasgow, using the route through Lockerbie. The current service through Dumfries is too slow. I don't think the link to Newcastle is sufficiently promoted. The 2010 train is too early as a last train and the 2112 is too slow.

I would like to see a commitment to extend the Waverley line to Canonbie where I live, if you should so choose, and the on to Carlisle. This line would complement the the Settle line and facilitate tourism.
