

Transport Scotland has commissioned MVA Consultancy to undertake research into the costs and challenges of changing the specifications for school transport, as part of the wider goal of improving students' safety and security onboard services. We feel that it is important to capture both the information held by Local Authorities and Bus Operators on home to school transport provision, and also to give you the opportunity to express any views on this issue that your organisation may hold.

MVA is contracted by Transport Scotland to undertake contact with all Local Authorities and other key stakeholders including bus operating companies. For most respondents this contact will only be in the form of requesting data through this survey, though we may also contact you to with a view to setting up in depth interviews if you are able to participate in this.

The aim of this research is to produce a national model for costing any legislative changes to specifications for school transport, and so it is crucial that it is completed, in order to produce the best evidence for any changes in this area.

## Potential Changes to School Bus Provision and Specification

*Q29 – If the law was changed to require all distance entitled children to be transported to / from school in vehicles fitted with seatbelts:*

<i>Q29A How much extra do you estimate this would cost per financial year for all your contracted school bus services? (£)</i>	
<i>Q29B What is the likely availability of suitable vehicles in your area?</i>	
<i>Q29C Is there anything that would prohibit the addition of seatbelts to your bus fleet? E.g. vehicles too old, operational requirements etc.</i>	

*Q30 – If you have any other comments to make about proposals to enhance school transport with seatbelts and other features, please add them below. We are particularly interested in your opinions on the following areas:*

- Issues with current home to school transport provision
- Future challenges of continuing and enhancing home to school transport provision
- Concerns around your ability to continue to provide home to school transport provision
- Difficulties with maintenance and wear and tear of vehicles and particular features
- Any other useful information

## Follow On Information

*Q31 – Please can you supply some contact details? These details will be kept in strictest confidence and will only be used for the purposes of this study.*

Your name	
Your organisation	
Your email address	
Your telephone number	
Is there any other person or persons in your organisation who may be able to assist us with school transport information? If so, please provide their name, position, and a contact telephone number.	

<i>Q32 – Would you be able to take part in further research for Transport Scotland. This would involve a short interview conducted either in person or telephone. The purpose would be to help us gain a better understanding of your school bus arrangements and your views on the subject.</i>	Yes	No
