

# Cabinet Type 600

# CEC Cabinet - Type 2

Power Bay Bay 1 Bay 2

**Notes:**

- Contractor to produce internal cabinet layout drawings and submit to the Contracting Authority to demonstrate a consistent approach across the scheme.
- Sizes and positions of equipment within cabinets are indicative only and demonstrate the typical installation only.
- The size of the UPS is dependant on the CEC equipment requirements.
- This drawing shows the maximum requirement for internal layout for the cabinets, actual layout will depend on the equipment required at each site. The Contractor should rationalise equipment where possible to minimise the footprint of the landtake required for cabinet installation. See NDX 1002-07ga for details of the duct infrastructure relating to the CECs.
- Cabinet labels to be as prescribed in NDX, the numbers and lettering for each cabinet will be specified by the Overseeing Organisation.
- See NDX 1002-07ga Sheet 1 of 3 for CEC installation details.
- CEC2 is also known as CECR+1 in Scotland.
- Details of cable terminations etc can be found in the NDX drawing series.

**Legend:**

- CCTV Closed Circuit Television
- CEC Combined Equipment Cabinet
- IP Internet Protocol
- MPC Multi Purpose Controller
- TEDP Termination and Electricity Distribution Pillar
- TMU Traffic Monitoring Unit
- UPS Uninterruptible Power Supply
