

A90/A96 Haudagain Improvement Project newsletter

Site cleared for construction

WELCOME

Welcome to the first edition of our **A90/A96 Haudagain Improvement project newsletter**.

I would like to take this opportunity to express how delighted we are that Farrans Construction has been appointed by Transport Scotland to construct this project.

This is a major infrastructure improvement project to reduce congestion at the Haudagain roundabout, and I'm sure everyone is looking forward to the benefits the improvements will bring.

Construction will soon be underway and is scheduled to be complete by Spring 2021.

Project Manager Tristram Browne

About the project

Haudagain roundabout is a major road junction between the A90 and A96 trunk roads in Aberdeen.

The roundabout has a limited capacity and has been the cause of significant queues and delays to traffic on the approach roads.

The A90/A96 Haudagain Improvement project includes construction of approximately 500 metres of new dual carriageway. It connects the the A90 North Anderson Drive and the A96 Auchmill Road, to

assist with reducing traffic congestion and improving journey time reliability.

The project will also cater for more inclusive, healthy and active travel modes of transport such as walking and cycling.

It includes appropriate crossing points and a new shared foot/cycle way next to the new link road and Manor Avenue.

This will provide a safer and more efficient route for pedestrians and cyclists.

Artist's impression of the new dual carriageway on completion

Advance work included the demolition of buildings on the site

‘Meet the contractor’ drop-in event

As part of our ongoing commitment to engage with the local community, the team will be holding a ‘Meet the Contractor’ drop-in event where you can meet members of the management team, find out more about the project and the upcoming works. The team will also be on hand to answer any queries or to discuss any concerns you may have.

This event will take place at:

Middlefield Community Project
 (“The Hub”) on **Wednesday 22 May**,
from **4pm – 7pm**.

Community drop-in opportunity is planned

Progress update

ADVANCE WORKS

In advance of the contract award and planned construction of the project, **31 buildings have been demolished in the Middlefield area as part of a programme of advance work to clear the planned route.**

In the coming months, we will start work to divert several utilities, to allow construction work for the new link road to be carried out safely, while maintaining services to local residents and businesses.

Keeping you informed

The project benefits from a dedicated community liaison officer, **Angela Newlands**. Angela is committed to keeping the local community informed, and ensuring that, where possible, the work carried out causes as little disruption as possible.

Community Liaison Officer
Angela Newlands

If you have any matters you wish to raise concerning the project, please contact Angela at: haudagain@farrans.com or telephone **0800 783 0024**.

Considerate Constructors Scheme

The A90/A96 Haudagain Improvement project will be one of Farrans Construction’s many sites to be registered with the Considerate Constructors Scheme. The scheme aims to improve the image of construction by its members abiding by its Code of Considerate Practice.
