TRANSPORT (SCOTLAND) BILL – WORKPLACE PARKING LEVY AMENDMENTS

SUBMISSION FROM Mobility and Access Committee for Scotland (MACS)

MACS has no comment on the principle of charging for a workplace Parking Levy.

However, we would like to ensure that any parking levies will not be charged for disabled people who have no option to travel but by private car (for various reasons) which could give employers a disincentive to employ disabled people. We must ensure that any parking levies do not hinder the actions to reduce the disability employment gap, and there may be a need for contingencies to be put in place to negate impacts on disabled people.

We note that there is an intended exemption for blue badge spaces, but there may be other aspects that affect disabled employees - or indeed visitors to workplaces. It is will therefore be important for a full Equality Impact Assessment to be carried out early in the design of any such scheme.
