### Volume 3: Figures

This document supports Volume 1 (Main Report) of the A9/A96 Inshes to Smithton Environmental Impact Assessment Report.

<b>1</b>	<b>Introduction</b>
1.1	Site Location Overview
1.2	Key Environmental Constraints
<b>2</b>	<b>Need for the Scheme</b>
2.1	Traffic Flows Location Plan - Base Year/Do Minimum
2.2	Traffic Flows Location Plan – Base Year/Do Something
<b>3</b>	<b>Consideration of Alternatives</b>
3.1	DMRB Stage 2 Options
<b>4</b>	<b>The Proposed Scheme</b>
4.1	The Proposed Scheme
<b>5</b>	<b>Overview of Environmental Assessment</b>
5.1	Stratton: Phases of Development
<b>7</b>	<b>Air Quality</b>
7.1	Air Quality Assessment: Constraints Plan
7.2	Air Quality Assessment: Baseline Nitrogen Dioxide Annual Concentrations (2017)
7.3	Air Quality Assessment: Do-Minimum Nitrogen Dioxide Concentrations (2022)
7.4	Air Quality Assessment: Do-Something Nitrogen Dioxide Concentrations (2022)
7.5	Air Quality Assessment: Change in Nitrogen Dioxide Concentrations
<b>8</b>	<b>Noise and Vibration</b>
8.1	Noise and Vibration Study Area and Calculation Area
8.2	Baseline Noise Monitoring Locations and Sample Receptors
8.3	Noise Level Difference Contour Map (Ground Floor) Do-Minimum Baseline Year Vs Do-Minimum Future Assessment Year
8.4	Noise Level Difference Contour Map (First Floor) Do-Minimum Baseline Year Vs Do-Minimum Future Assessment Year
8.5	Noise Level Difference Contour Map (Ground Floor) Do-Minimum Baseline Year Vs Do-Something Baseline Assessment Year
8.6	Noise Level Difference Contour Map (First Floor) Do-Minimum Baseline Year Vs Do-Something Baseline Assessment Year
8.7	Noise Level Difference Contour Map (Ground Floor) Do-Minimum Baseline Year Vs Do-Something Future Assessment Year
8.8	Noise Level Difference Contour Map (First Floor) Do-Minimum Baseline Year Vs Do-Something Future Assessment Year
<b>9</b>	<b>Landscape</b>
9.1	Local Landscape Character Areas
9.2	Proposed Scheme on Aerial Photography
9.3	Landscape Features
9.4	Visibility Analysis (Local Landscape Character Areas with Zone of Theoretical Visibility)
9.5	Landscape and Ecological Mitigation
9.6	Cross Sections

**10 Visual**

- 10.1 Zone of Theoretical Visibility – Proposed Scheme
- 10.2 Visual Impact on Built Receptors
- 10.2 Visual Impact on Outdoor Receptors
- 10.4 Viewpoint Locations
- 10.5 - Visualisations
- 10.11

**11 Ecology and Nature Conservation**

- 11.1 Ecological Designations
- 11.2 Phase 1 Habitat Survey
- 11.3 Badger Survey Results (Confidential)
- 11.4 Bat Roost Survey Results
- 11.5 Bat Crossing Point Survey Results
- 11.6 Bat Static Detector Survey Results
- 11.7 Birds Survey Methods
- 11.8 Key Farmland Breeding Birds
- 11.9 Schedule 1 Species (Confidential)
- 11.10 Wintering Birds
- 11.11 Otter Survey Results (Confidential)
- 11.12 Great Crested Newt Survey Results
- 11.13 Aquatic Survey Results

**12 Geology, Soils, Contaminated Land and Groundwater**

- 12.1 Potential Contaminated Land

**13 Road Drainage and the Water Environment**

- 13.1 Surface Water Features
- 13.2 Baseline Flood Risk
- 13.3 Residual Flood Risk (with Mitigation)
- 13.4 Drainage Catchments

**14 Cultural Heritage**

- 14.1 Locations of Archaeological Remains and Historic Buildings
- 14.2 Location of Historic Landscape Types
- 14.3 Potential for Unknown Archaeological Remains

**15 People and Communities – Community and Private Assets**

- 15.1 Community Facilities and Land and Commercial/Industrial Properties
- 15.2 Proposed Scheme Land-take: Agricultural and Sporting Land
- 15.3 Tree Constraints Plan
- 15.4 Planning Applications and Development Land
- 15.5 Change in Vehicle Access

<b>16</b>	<b>People and Communities – All Travellers</b>
16.1	Baseline Conditions
16.2	Potential Impacts on NMU Routes and Proposed Mitigation
<b>17</b>	<b>Materials</b>
17.1	Operational Waste Management Sites
