

Dear Sharon

With regard to the above, the matter of Station Car Parking was discussed at our recent Community Council meeting.

The general consensus of the meeting was that Bridge of Allan would benefit from a formal extension to the station parking provision.

At present the streets surrounding the formal car park are heavily used by overflow parking and this can often lead to access problems for local residents.

To that end, the group also debated the issue of car park charges. As a group we did not believe that this would help the current situation. We feel that charging for station parking would only serve to encourage users to park elsewhere in the neighbouring streets. This would increase the problems already being experienced by local residents.

I have attached our completed respondent form for your records.

If anything is unclear or you require further information, please do not hesitate to contact me.

Best regards

Desiree Ashton
Secretary - Bridge of Allan Community Council
