

Please accept this submission further to your consultation paper 'Station Car Parking Policy in Scotland'. I am aware that we missed the deadline of 25th September 2009. I hope that you will be able to take cognisance of our response. We are an amenity association within Linlithgow. Information about the Trust may be viewed in our website: www.lct.org.uk.

We found out about the consultation process towards the end of September. Would it please be possible in the future for information regarding such consultation processes to be emailed to chair@lct.org.uk? That would be helpful.

I would be grateful if you could advise whether you will be able to consider our input.

I look forward hearing from you.

Chris.
