CONSULTATION ON INITIATIVES RELATED TO THE SCOTRAIL
FRANCHISE EXTENSION

Q11 Which pilot scheme changes to fares should we make to encourage modal shift?

We, the undersigned, wish to respond to the above item and have no objection to our names being made public.

We should like to propose the introduction of a Concessionary Travel Scheme on the Railway similar to that provided by the Bus Companies. The Far North Line would be an ideal area to have a pilot scheme. We are certain that this would encourage many more people to use the trains.
