

A14.5 Potential Mitigation Tables

- 1.1 This appendix includes details of the potential mitigation for cultural heritage assets. Please note only assets where mitigation is proposed are included here.

Table 1: Potential Mitigation – Archaeological Remains

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
Archaeological Remains: Construction				
32	Ashton Farm Ring Ditch	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
40	Cairnlaw Possible Barrow	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
49	Milltown, mill pond and sluice gates (site of)	Negligible	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
75	Ridge and Furrow at Balloch	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
86	Possible Stone Circle, Upper Cullernie	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
93	Upper Cullernie, Hut Circle	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
95	Upper Cullernie, Pit (2)	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
96	Upper Cullernie, Enclosure	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
97	Upper Cullernie, Ring Ditch	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
103	Upper Cullernie, Cropmarks	High	Neutral	Trial Trenching

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
	and Ring Ditch			Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
104	Upper Cullernie, Enclosure (1)	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
108	Newton Cropmarks (1)	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
109	Newton Unenclosed Settlement	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
164	Ring Ditch at Brackley	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
165	Lochside Farmstead (site of)	Negligible	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
173	Drumdivan Farm (site of)	Negligible	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
176	Mosshall Possible Enclosure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
196	Cropmark at Lochdhu Farm	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
206	Broadley Unenclosed Settlement	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
209	Cropmarks at Blackpark	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
210	Bognafuran Wood Possible Settlement	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
220	Blackcastle Farmstead (site of)	Negligible	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
254	Possible Ring Ditch at Ballagan Farm	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
266	Blackcastle Cottage Trackway (site of)	Negligible	Neutral	Watching Brief during construction
268	Blackcastle Trackway (site of)	Negligible	Neutral	Watching Brief during construction
312	Pit Cluster at Millhill	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
314	Castle of Auldearn, Dooket Hill	High	Neutral	Deciduous woodland planting to soften views to the road
395	Cropmarks at Little Penick	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
427	Braicklaich chapel and Cemetery (site of)	High	Neutral	Watching Brief during construction
456	Hollow at Tornagrain Wood, Petty	Negligible	Neutral	Watching Brief during construction
487	Milton of Culloden Clearance Cairns	Negligible	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
491	Blackcastle Quarry Scoop	Negligible	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
498	Ashton Farm Possible Enclosure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
				detailed report at the NRHE
499	Ashton Farm Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
500	Cairnlaw Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
501	Milton of Culloden Geophysical Survey Anomalies	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
502	Newton of Petty Possible Enclosures	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
503	Morayhill Field Boundary	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
504	Kerrowaird Possible Drainage Ditches	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
505	Tornagrain Possible Field Boundaries	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
506	Culblair Field Boundary	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
507	Culblair Possible Ditches	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
508	Brackley Possible Drainage Ditches	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
509	Blackcastle Possible	Low	Neutral	Trial Trenching

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
	Enclosures			Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
510	Drumdivan Geophysical Survey Results	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
511	Kildrummie Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
512	Balnaspirach Field Boundary	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
513	Balnaspirach Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
514	Blackpark Possible Structure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
515	Blackpark Possible Enclosure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
516	Blackpark Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
517	Waterloo Cottages Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
518	Mill of Boath Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
519	Penick Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
520	Courage Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
521	Morayston Possible Pits	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
523	Morayston Possible Enclosure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
524	Tornagrain Cropmarks	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
525	Mid Coul Possible Settlement	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
527	Milton of Braicklaich Possible Settlement	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
530	Tirfoglein Possible Field Boundary and Pits	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
531	Balspardon Possible Field Boundary and Pit	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
532	Brackley Enclosure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
534	Balnaspirach Possible Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
545	Penick Farm Ring Ditch	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
				detailed report at the NRHE
547	Balloch Possible Field Boundary	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
548	Upper Cullernie Possible Ring Ditch (2)	Medium	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
550	Milltown Possible Enclosures and RingDitches	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
551	Allanfearn Possible Ditches and Settlement	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
552	Allanfearn Possible Ditches and Structures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
553	Upper Cullernie Possible Structures	High	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
554	Upper Cullernie Possible Pits, Ditches and Enclosures	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
555	Balmachree Possible Ditches	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
556	Newton of Petty Possible Enclosure	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
557	Morayston Possible Settlement	Low	Neutral	Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the NRHE
558	Kerrowaird Possible	Negligible	Neutral	Watching Brief during construction

	Trackway			
Archaeological Remains: Operation				
314	Castle of Auldearn, Dooket Hill	High	Neutral	Deciduous woodland planting to soften views to the road

Table 1: Potential Mitigation – Historic Buildings

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
Historic Buildings: Operation				
61	Allanfearn Farmhouse	Medium	Slight	Landscape planting to reduce visual impacts and aid its integration into the scheme.
142	Petty United Free Church	Low	Slight	Landscape planting to reduce visual impacts and aid its integration into the scheme.
154	Culblair Farmhouse	Low	Slight	Level 1 Historic Building Record prior to construction to record the asset in its current form and condition.
473	Meikle Kildrummie House	Medium	Slight	Landscape planting to reduce visual impacts and aid its integration into the scheme.

Table 1: Potential Mitigation – Archaeological Remains

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
HLT: Construction				
HLT25	Auldearn Battlefield	High	Moderate	Topographic Survey of HLT25 in its current form and condition Photographic Survey of HLT25 in its current form and condition Trial Trenching Mitigation excavation as required and dissemination of the results by the deposition of an ordered archive and detailed report at the National Record of the Historic Environment. Mixed woodland screening and deciduous trees to link to the woodland surrounding Boath House.
HLT2	Designed Landscapes	Medium	Slight	Level 1 survey in accordance with Understanding the Archaeology of Landscapes - A guide to good recording practice,

Asset Number	Asset Name	Value	Residual Significance	Potential Mitigation
				to record the historic landscape type in its current form and condition.
HLT3	Rectilinear Fields and Farms	Low	Slight	Where possible grade out proposed earthworks to assist in integrating the proposed Scheme into the surrounding existing landform. Construction of stonewalls, hedgerows or fence lines along realigned fragmented boundaries using construction techniques and materials found in the adjacent landscape.
HLT4	Managed Woodland	Low	Slight	Protection and retention of existing mature woodland in close proximity to construction where possible. Inclusion of woodland planting using species found in the surrounding landscape and located to integrate scheme with landscape pattern.
HLT5	Planned Rectilinear Fields and Farms	Low	Slight	Where possible grade out proposed earthworks to assist in integrating the proposed Scheme into the surrounding existing landform. Construction of stonewalls, hedgerows or fence lines along realigned fragmented boundaries using construction techniques and materials found in the adjacent landscape.
HLT14	Plantation	Negligible	Slight	Protection and retention of adjacent plantation woodland in close proximity to construction where possible. Inclusion of woodland planting using species found in the surrounding landscape and located to integrate scheme with landscape pattern.
HLT 16	Holdings	Low	Slight	Where possible grade out proposed earthworks to assist in integrating the scheme into the surrounding existing landform. Construction of stonewalls, hedgerows or fence lines along realigned fragmented boundaries using construction techniques and materials found in the adjacent landscape.
HLT23	Rough Grazing	Low	Slight	Where possible grade out proposed earthworks to assist in integrating the scheme into the surrounding existing landform. Construction of stonewalls, hedgerows or fence lines along realigned fragmented boundaries using construction techniques and materials found in the adjacent landscape.
