

## Forth Crossing Bridge Constructors

HOCHTIEF Solutions  
American Bridge International  
DRAGADOS  
Morrison Construction

Dear Neighbour,

We are writing to provide you with an update of planned works on the Forth Replacement Crossing (FRC).

The work involves the pouring of concrete, at various times through to Autumn 2016, on the Approach Viaduct South deck both above Society Road in the vicinity of Port Edgar Barracks and beyond, to meet the main crossing deck .

Generally, the pouring of the concrete will be completed within normal working hours. However, finishing and covering the concrete are operations which can extend for as much as six hours after all the concrete is in place.

The finishing works are not a noisy operation and we don't anticipate this disturbing our neighbours.

**For up to date information on the project please see Transport Scotland's FRC project website [www.forthreplacementcrossing.info](http://www.forthreplacementcrossing.info). Should you have any queries, please contact our email [enquiries@forthreplacementcrossing.info](mailto:enquiries@forthreplacementcrossing.info) or our Hotline on 0800 078 6910.**

**In addition, our Contact and Education Centre (CEC), located adjacent to the Forth Road Bridge offices on the south side of the existing Forth Road Bridge, is manned 09:00hrs to 17:00hrs Monday to Thursday, 09:00hrs to 16:00hrs on Fridays and 10:00hrs to 16:00hrs on Saturdays to deal with enquiries and to supply information.**

**Also, access to the Exhibition room in the building is available at certain times.**

**For confirmation of all CEC opening times please check the project website.**

Issued to –Neighbours adjacent to the works in Linn Mill and Clufflat

Issue date –Wednesday 4<sup>th</sup> May 2016
