Morrison Construction

Dear Neighbour,

We are writing to provide you with notice of planned works on the Forth Replacement Crossing (FRC).

This flyer is a follow up to our issue of Flyer Ref F70 which described the phasing of the works at Standing Stone Road Underpass and Dalmeny rail overbridge. We are pleased to report the successful completion of the Phase 1 works described therein.

Following removal of the existing verge, and subsequent inspection of bridge deck, we are required to remove a 100mm wide strip of existing road surfacing, approximately 100 metres in length, by hand tools, so as not to damage the deck waterproofing. We will then apply new waterproofing which will overlap the existing system.

We will require to temporarily close a lane of the A90 overnight, in order to carry out the work.

The work has been planned to be executed between the hours of 8pm and 6am overnight on Friday 12th, Saturday 13th and Sunday 14th of June 2015.

We will endeavour to complete the noisiest works before midnight on each night and work will start at the closest point to receptors early in the shift working away from receptors as the shift progresses.

The plant to be deployed will include – tower lights (facing away from houses), floor saw, hand held breakers and hand tools. We will use noise screens as per phase 1 works. The above is our best estimate, at this stage, of start dates and durations. These works are subject to various factors and the programme may require to be adjusted.

We would like to take this opportunity, again, to apologise, in advance, for any inconvenience our activities may cause and also to thank you for your patience and consideration to date.

PTO

For up to date information on the project please see Transport Scotland's FRC project website www.forthreplacementcrossing.info. Should you have any queries, please contact our email enquiries@forthreplacementcrossing.info or our Hotline on 0800 078 6910.

In addition, our Contact and Education Centre, located adjacent to the Forth Road Bridge offices on the south side of the existing Forth Road Bridge, is manned 09:00hrs to 17:00hrs Monday to Thursday, 09:00hrs to 16:00hrs on Fridays and 10:00hrs to 16:00hrs on Saturdays to deal with enquiries and to supply information. Additionally, access to the Exhibition room in the building is available between 10am and 4pm each Saturday through to the end of October 2015 and there are also technical presentations on the last Friday of every month in the same period, all as advertised on the Project Website.

Issued to – Residents in Dalmeny adjacent to the works.

Issue date – 5th June 2015
